

Pres-On specializes in manufacturing a wide range of high-performance tapes, gaskets and specialty products designed to meet the specifications of window and door assembly. Pres-On's unique "wet" coating process offers outstanding adhesive anchorage, while providing specific adhesive formulations resistant to temperature extremes, UV degradation and aging.

Interior/Exterior Windows

Interior/Exterior Doors

Showers Doors

At Pres-On, we are driven to set new standards for quality, reliability and efficiency in adhesive solutions. While our competition talks about innovation, we've already built it into our tapes, gaskets, foams and specialty products to add quality to your windows and doors.

Why Use Pres-On Products?

- **Complete Adhesive Anchorage:** Our wet coating process allows maximum adhesive penetration to our foam substrates. In addition to assuring a permanent bond, this process provides optimal sealing protection against moisture, dust and air.
- **Research & Development:** Working together with our customers, our R&D chemists and technicians apply science to the most demanding pressure-sensitive adhesive applications assuring peak performance.
- **Custom Sizes & Configurations:** Whatever your need — *and production schedule* — Pres-On's coating and converting facilities have the capacity to meet the most stringent specification criteria.

WINDOW & DOOR PRODUCTS OFFERING

Glazing Tape

Cross-linked PE foam tape, single and double coated adhesive with easy-release liner for use in sealing IG to the sash. Also for general mounting and bonding. AAMA Approved #800-92. Available in 1/32", 1/16" and 1/8" thickness. Stock code: P4500

Structural Glazing Tape

Low thermal conductivity urethane foam tape reduces heat transfer and inhibits condensation on windows, doors and metal systems. Available in both in double and single coated tape versions. Stock code: Double coated - SG6400, Single Coated - SG6500.

Shower Door Tape

High-bond, double-sided water clear acrylic PHB tape available in several thicknesses. For use in frame mounting. Waterproof. Stock code: PHB-1010 (10 mil), PHB-1020 (20 mil), and PHB-1040 (40 mil).

Pres-Mount™ Tapes

Double sided mounting tape ideal for use on irregular surfaces. 1/32", 1/16" and 1/8" thickness. Stock code: P4200 (rubber-based adhesive available in white or black), P4300 (acrylic-based adhesive available in white or black).

AF Series PHB Tape (Muntin Bar Tape)

White, grey or black double-sided acrylic foam tape bonds to metal, plastic, glass and vinyl. Resistant to harsh environmental conditions such as temperature extremes, UV degradation and glass cleaning agents. Conforms to irregular surfaces. Replaces fasteners, spot-welds or rivets in assembly. Available in 10 mil and 15 mil white, 1/32" and 1/16" grey and 25mil and 45mil black.

RA Separator/Shipping Pads

Cork, foam or felt pads for glass protection during shipment. Ideal for transporting, packing, storage and installation of finished and unfinished glass doors, windows and mirrors. Static cling foam or removable adhesive versions available. Available in 1/8", 3/16" and 1/4" thickness.

Setting Blocks (Glazing Shims)

Setting blocks isolate IG from sash, prevents window glass from cracking and protects glazing bead. Available with or without adhesive. Available in 1/16" and 1/8" thickness. Stock code: SB00

Pres-Bond Bumpers

Polyurethane molded bumpers available in assorted sizes and colors. Used between glass to stop rattling of muntin bar. Also used as cabinet door bumpers.

Sticky and Non-Sticky Back Chipboard Spacers

Pre-hung door spacers used to locate the door in frame during shipping and installation. Prevents twisting, rattling and damage. No measuring required. 1/16" and 1/8" thicknesses on 6-inch strip (6 spacer pads per strip).

Jamb & Threshold Gaskets

Pressure-sensitive 1/16" thick foam tape designed to provide an airtight and watertight seal of jamb to sill and jamb to header. Die cut to your specification. Stock Code: VF10300.

Jamb Foam (Window Wrap)

Pressure sensitive 1/2" thick foam tape provides insulation between window and surrounding frame. Assorted sizes available. Stock code: P8500E.
